ERP Buddies specializes in NetSuite cloud solutions, providing various tools and strategies to meet client needs on streamlining their business processes.

Our dynamic team of business and technical experts follow best practices to provide the best solutions possible for businesses in a variety of industries. We focus on the implementation, data migration, customization, and integration of cloud-based ERP systems. We offer 24/7 support to our clients and an extensive training and mentorship program to not only our employees but to our clients as well on ERP systems (NetSuite).

Our goal is to provide our clients with the best possible cloud-based solutions and help them drive their sales pipeline into the next gear.

Our team believes that success starts with the relationship between the client and ERP Buddies Inc. Our team takes the time to learn and understand the needs and wants of our clients and in turn provides a tailored plan to implement the best possible solutions.

# ERP Buddies Inc. Advantages and Benefits

## Cost Control and Budget

We accommodate and work around our clients budgets to meet the specific solutions needed.

## Certification, Qualification, Expertise

ERP Buddies has advanced authorizations and certifications to implement the most sophisticated ERP components. We are authorized members of the **Commerce Agency Program** to implement **SuiteCommerce Advanced** e-commerce solutions.

Advanced certification to implement NetSuite Advanced Revenue Management and Multi-Book accounting modules.

## Rapid, New Technology Implementation

Our implementation phase is quick and smooth. We are **knowledgeable in multiple ERP cloud solutions**, providing you with the best choices for your business. We are constantly growing and learning new solutions so what we can meet the needs of each and every client we serve.

## Focus on Core Business Processes and Relationship

Our company believes that success stems from the relationship we have with our clients. We strive to **fully understand the needs and wants** of our clients and build a relationship that fosters growth. We aim to focus on your core business process and help you propel your business to the next level.

## Timeline and Risk Reduction

We guarantee to make your go live deadline every time. We work around your timeline, meeting all important deadlines to ensure your business will run smoothly. We have met the go live date **100%** of the time with our clients.

# ERP Buddies NetSuite Implementation

Our NetSuite implementation focuses on the relationship with our clients to get a deep understanding of the business goals and processes. We work towards implementing a system that will propel our clients business to the next level and offer them success they would not of had before.

## Understand Your Business

- Our team does a comprehensive breakdown of our clients business processes.
- Here, we look at our clients master and transactional data and do a deep dive into preliminary insights on how NetSuite can maximize profits.

## Gathering Information

- We analyze our client's old system's records, tables and its fields.
- We analyze its relationship to our clients business process and needs to determine what is working and what needs to be fixed.
- We collect master data, transactional data and historical data and then validate the integrity of it from business users.

## Out of the Box NetSuite Implementation

- Planning and executing which out of the box features we will be using.
- We opt for using out of the box features because it is more optimized for business functions.
- Where standard features are not enough, we offer NetSuite customization and automation to fill those needs.

## NetSuite Customization and Automation

- Using SuiteFlows and SuiteScripts, we automate record relationships and process data that is more suited for your business needs.
- We can give Users or Roles a more customized and catered UI with dashboards, saved searches, centers and tabs.

## NetSuite Customization and Automation

- We offer on-going 24/7 support for any bugs that need to be fixed or any processes that you would like to change
- We have met our clients GO Live requests 100% of the time.

Cloud-based ERP configuration is easier with the support of technical and functional experts that help you create, propel and maintain business processes across your cloud platform with the most productive approach.
